

SME Expertise in relation with 5G PPP Phase 3 Call Topics – November 2017

<i>SME Name</i>	CityPassenger SA
<i>Web Site</i>	www.citypassenger.com
<i>Contact Email</i>	yroche@citypassenger.com
<i>Topics of Interest</i>	ICT-17 (RIA), ICT-18 (IA), ICT-19 (RIA)
<i>Expertise / Added Value brought by the SME</i>	CityPassenger develops innovative solutions answering the network needs emerging from the more and more massive utilization and exchange of digital data in connected enterprises. CityPassenger has more than 800 customers in the Car Retail domain.
<i>Additional comments e.g. with respect to Phase 3 and the recommendations from the pre-structuring model or any other comments</i>	CityPassenger leads top level R&D activities on domains related with the development of network infrastructure for data intensive distributed systems: ICT-17 - End-to-End Management of Data Streams with a focus on security (data isolation/slicing, conformity of data exchange topology (cross domain context), source node blocking of undesired data, virtualisation...). ICT-18 - V2N: data exchange between Car Brand/Vehicle/Retailer/Driver with a strong focus onto the data protection against leakage and/or flooding. ICT-19 - Focus onto the Consumer Cluster (data interconnectivity in digital points of sales, objects and consumers connectivity in shops, omnichannel retail, handling dataset for consumer analytics...).

Note: the NetWorld2020 European Technology Platform, the SME Working Group, and the To-Euro-5G support project who is supporting both, cannot be held responsible for the information in this form, that has been collected from the SME.
