

SME Expertise in relation with 5G PPP Phase 3 Call Topics – November 2017

<i>SME Name</i>	InterInnov
<i>Web Site</i>	www.interinnov.eu
<i>Contact Email</i>	jimagen@interinnov.eu
<i>Topics of Interest</i>	ICT-17 (RIA), ICT-19 (RIA), ICT-19 (CSA), ICT-21 (CSA), EUK-02 (RIA)
<i>Expertise / Added Value brought by the SME</i>	InterInnov is an SME specialised in international research & innovation. We are a member of the Board of the 5G PPP and are participating in two Phase 2 projects, the To-Euro-5G CSA and the 5G-MEDIA IA project. At 5G PPP level and in 5G-MEDIA we are responsible for promotion, dissemination and communication, as well as community building and stakeholders' engagement. We are also involved in the Trials Working Group as "international stream co-champion" where we are monitoring cooperation with the USA and Canada (the latter with Thales). We are also chairing the SME Working Group and have many activities to increase exposure and visibility of SMEs in the 5G PPP and beyond.
<i>Additional comments e.g. with respect to Phase 3 and the recommendations from the pre-structuring model or any other comments</i>	We are promoting participation of SMEs in 5G PPP projects and hope that the participation of SMEs in Phase 3 projects will reach at least 20-22%. We have been working at international level, in particular with USA and Canada, for several years. We participate in a project with China and we contributed to the EU-China Workshop. We also have good contacts in Korea, with SMEs and research institutes.

Note: the NetWorld2020 European Technology Platform, the SME Working Group, and the To-Euro-5G support project who is supporting both, cannot be held responsible for the information in this form, that has been collected from the SME.
