

SME Expertise in relation with 5G PPP Phase 3 Call Topics – November 2017

<i>SME Name</i>	Power Operations
<i>Web Site</i>	www.power-ops.com
<i>Contact Email</i>	artemis@power-ops.com
<i>Topics of Interest</i>	ICT-17 (RIA), ICT-19 (RIA)
<i>Expertise / Added Value brought by the SME</i>	Power Operations is an innovation startup targeting at promoting secure and privacy-preserving energy efficiency at a wide variety of disciplines include smart grids and data centres. We participate in the 5G Phase II project NRG5, where we implement a blockchains-based solution for allowing secure logging and trusted communications among different entities and actors of the energy domain.
<i>Additional comments e.g. with respect to Phase 3 and the recommendations from the pre-structuring model or any other comments</i>	For Phase 3, Power Operations is willing to partner in a project where our blockchains-based framework is further developed and applied in different verticals, while also seeking for opportunities to promote the company service portfolio via the 5G ecosystem.

Note: the NetWorld2020 European Technology Platform, the SME Working Group, and the To-Euro-5G support project who is supporting both, cannot be held responsible for the information in this form, that has been collected from the SME.
