<i>SME Name</i>	WINGS ICT Solutions
<i>Web Site</i>	http://wings-ict-solutions.eu/
<i>Contact Email</i>	andgeorg@wings-ict-solutions.eu , kritikou@wings-ict-solutions.eu
<i>Topics of Interest</i>	All topics
<i>Expertise / Added Value brought by the SME</i>	WINGS is an SME that focuses on the development of software for various vertical sectors (namely; water, energy, smart cities, food safety, health, transportation, finance) through advanced wireless, cloud/IoT, big data and security technologies. WINGS is staffed by members (solution architects and senior/junior developers) who have been active in research projects for more than twenty years. As part of its strategy, WINGS aims at developing new products and services, as well as at attracting investments, either for expanding its business or for creating affiliate businesses.
<i>Additional comments e.g. with respect to Phase 3 and the recommendations from the pre-structuring model or any other comments</i>	WINGS has an extensive portfolio of participation and leadership within research projects, just to name a few, Clear5G, One5G, Speed5G, Flex5Gware, Fantastic5G, iKaaS, EnergyWater and more.

Note: the NetWorld2020 European Technology Platform, the SME Working Group, and the To-Euro-5G support project who is supporting both, cannot be held responsible for the information in this form, that has been collected from the SME.
