<i>Expertise / Added Value brought by the SME</i>	<p>ACORDE is a telecommunication SME committed to designing, manufacturing and marketing products and services at the highest technological level. The company designs and develops high technology equipment and systems for communication in compromised environments. In particular, ACORDE is specialized in the development of RF equipment, satellite communication systems, monitoring and control integrated systems, and location and positioning systems.</p> <p>Aiming at providing full customer satisfaction, ACORDE adapts the company portfolio to the client requests, or directly built-to spec for the most specific applications. This has led to provide full compliant solutions for airborne platforms or submarines to several international space agencies, DoDs from several continents and large system integrators.</p> <p>ACORDE, being a high-tech company, supports and contributes to the technology evolution by actively participating in ESA (European Space Agency) and EU (European Union) collaborative projects in the fields of satellite communications, Galileo-GNSS or Smart Wireless Sensors Networks. Performing the reliable RF partner role in these projects has become a tradition over the last 15 years.</p>
